

WORLD MEDICAL FOOTBALL CHAMPIONSHIPS (WMFC)

2024 COMPETITION RULES

1. General Aspects

- 1.1. The *World Medical Football Championship* is intended for medical teams only.
Medical condition: Players must hold a University Degree in Human Medicine and be working (or entitled to work) as a human medical doctor in their country, plus be able to prove a basic medical knowledge under requirement of organizers and/or other teams.
 - 1.1.1. Exceptions to this rule:
 - 1.1.1.1. Non-medical players who participated in WMFC editions previous to Mainz 2006: only one of such players per team is allowed and he must be over 45 and wear a distinctive armband.
- 1.2. Team representatives are fully responsible for the medical condition of players. Documents (passports, medical degree, other documents and pictures) must be submitted by representatives to organizers well in advance of WMFC. The hosting team will check all documents and may request further evidence if any doubts on the medical status of a player.
- 1.3. Team representatives must also submit a team sheet with picture, name, age (birthdate), shirt number and medical specialty of each player.
- 1.4. The WMFC is structured in 4 competitions, running in parallel:
 - 1.4.1. Ferran Morell Cup (Open Trophy): Players are only requested to be male medical doctors and at least 25 years of age at tournament initiation.
 - 1.4.2. Clemens Vogel Cup (Masters Trophy): Players are also requested to be at least 45 years of age at tournament initiation. Female players over 25 are also eligible.
 - 1.4.3. Carlito Cup: Players are also requested to be over 60 years of age. Female players welcome
 - 1.4.4. Women's Cup: Female players only. No minimum age.
- 1.5. For a particular WMFC edition, a nation may register a maximum of one team in each competition. Extra teams from a nation may be permitted in special circumstances as approved by the host organizing committee.
- 1.6. On-site medical tests: At the end of the match, the captains must select 2 players from the opponent team to answer a questionnaire based on fundamental medical topics. The on-field Delegate is responsible of the fair execution of the tests and should report the outcomes to the organizers. Results of on-field tests will be published, so that same players are not tested again in the following days. In case of unclear medical status of a player, he will be challenged by the Organizing Committee. If any player refuses to undertake the test, his team will automatically forfeit the match, resulting in a 3-0 win awarded to the opposition. The Organizing Committee will disqualify any team for the rest of the championship if it is proved that there is a non-medical player on the field at any time. And the Board will exclude such team for at least the following 2 editions of the WMFC.
- 1.7. Changes or updates to these rules must be communicated at least one month prior to the start of the WMFC. After that, a change to existing rules can only be made under

exceptional circumstances by a unanimous decision of the Board and communicated as soon as possible to all teams.

1.8. The Competition:

1.8.1. Results and Tournament standings will be made available daily by the Organizing Committee.

1.8.2. The WMFC shall begin with a league among the teams composing one group. The number of groups will depend on the total number of teams enrolled. The composition of the groups will be determined by drawing a lot at the opening ceremony.

1.8.3. The players must be dressed in their team strip 30 minutes before the match begins. All teams should have an alternative colored team strip to avoid a clash of colors. In this case, the visiting team (listed second in the draw) will change team strip.

1.8.4. Substitutions are limitless and reversible, i.e. any replaced player can substitute for another player later on in the match. The replaced player must have left the field before the substitute player may enter. Substitutions can only be made within 5 m of the halfway line, at the side of the team managers. There is no need for the game to be stopped for substitutions to occur. No need to warn referees

1.8.5. Any other rules of international soccer/football apply, unless stated otherwise.
